

PLATO[®] Content Cache Server

Enterprise Content Acceleration

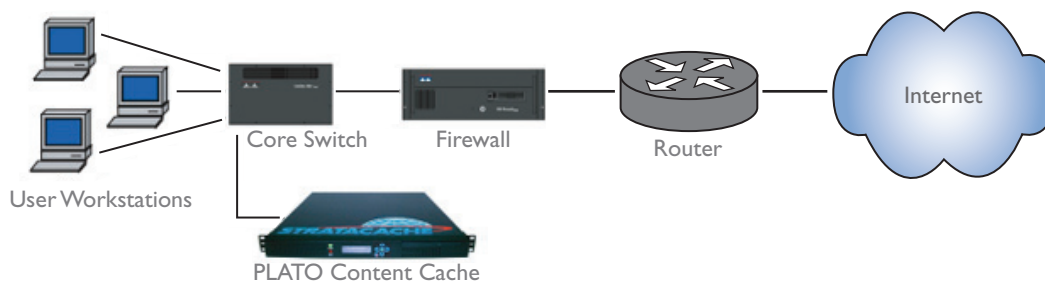

PLATO Learning has teamed up with Stratacache to provide our customers who have bandwidth limitations a way to utilize our rich-media, web-based curriculum with minimal impact on other network applications.

The PLATO Content Cache represents a high-performance content accelerator designed especially for schools. The PLATO Content Cache is the ideal choice for networks with dedicated Internet or WAN uplinks up to 10 Mb/s with moderate Internet, Intranet, and web application use.

The PLATO Content Cache

- Maximizes delivery speed of PLATO Learning content to learners while reducing bandwidth consumption.
- Supports more PLATO Learning users without adding bandwidth.
- Lowers infrastructure costs.

The PLATO Content Cache is easily configured, deployed, monitored, and managed in any IP network environment. Unit configuration and deployment is a quick and simple process out of the box by one of our PLATO Field Engineers. Ongoing appliance monitoring and management is easily accomplished via the secure web administrator or SSH session.

The PLATO Content Cache Server is available as a 1U rackmount device or stand-alone tower.

	Rackmount	Tower
Transactions per Second	400	400
Cache RAM	1 GB	1 GB
Cache Storage	115 GB	115 GB
Drive Configuration	200 GB Hard Drive	200 GB Hard Drive
Network	Dual 10/100/1000Mb/s Ethernet	Dual 10/100/1000Mb/s Ethernet
Maximum Cache RAM	2 GB	2 GB
Maximum Disk Count	1	1
Optimal Bandwidth	1.5 – 5 MB	1.5 – 5 MB
Dimensions	1.75 H x 19 W x 20 D (in.)	16.75 H x 7.75 W x 18.5 D (in.)
Weight	26 lbs.	26 lbs.

Common Model Specifications

Latest StrataCORE Acceleration Code
 Current Generation Processors
 Slim CD-ROM Drive
 Slim Flash Drive
 Single Cache Disk Module
 Single AC or DC Power Supply
 VGA Video Output
 Support for WCCP 1 & 2
 Support for All Major Layer 4 Switches
 SNMP Device Management
 FCC Class A Emission Rated
 Operating Temperature of 50° to 100° F

Warranty

1-year warranty is included with initial purchase.

This warranty includes:

- 7a.m. – 6p.m. CST Monday–Friday
Telephone, Email Technical Support
- Extended Parts and Labor Warranty
- Remote System Diagnostics
- Overnight Replacement Part Program
- Express Repair (3-day turnaround)

1- and 3- year extended warranties can be purchased.

Product Options

Directory Support for NTLM, AD, LDAP, and Radius
 Streaming Media Caching
 DNS Caching
 Websense or Secure Computing Filtering
 eCDN Content Distribution
 Web Application Acceleration
 Application Layer Multicast Support
 Native Multicast Support
 Powerful Management API
 Content Pre-Population
 Enhanced Transaction Logging and Reporting

Support Options

Advanced Appliance Configuration
 Remote Troubleshooting and Support
 Toll-Free, E-mail, or Online Incident Support
 On-Site Appliance Spares
