- Targeted, effective, easy-to-use courseware designed specifically for adult learners

Web-based curriculum for anytime, anywhere access

Self-paced, individualized instruction to increase motivation and success

Content aligned to National Reporting System standards and other national tests, including TABE and CASAS

# Help your adult learners meet their goals.

Your adult education program needs to satisfy a diverse population of adult learners with different goals—attaining their GED certification, furthering academic or vocational training, or refreshing skills to improve employment opportunities. Your adult learners have distinct scheduling needs, requiring you to provide comprehensive instruction in a way that fits their time restrictions. How can your program help this diverse group of students accomplish their goals?

PLATO® Adult Education & GED Preparation Solutions provide a targeted, effective, and easy-to-use education solution that helps your adult learners achieve success. Our courseware and assessments allow you to meet the needs of your diverse student population while providing them the specific instruction they need to advance in their academic and vocational futures.

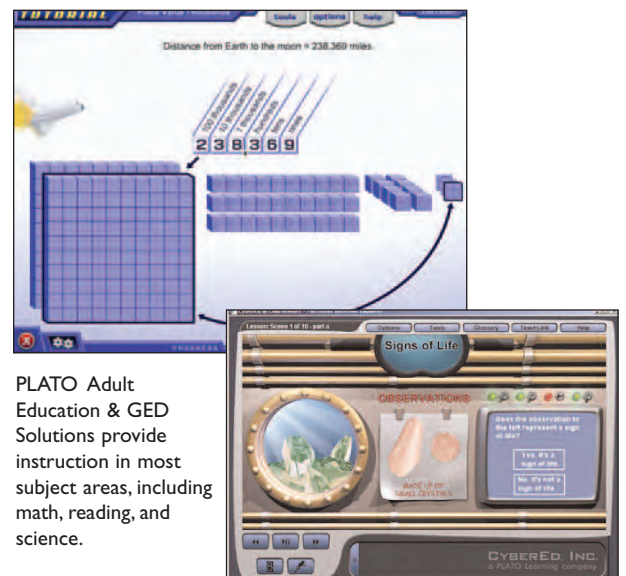

## Give your students access to learning when it fits in their schedules.

Flexibility to meet the needs of adult learners is key to success in adult education programs. Your students have numerous time restrictions and need a program that accommodates their schedules. PLATO Learning's award-winning, web-based courseware is accessible anytime, anywhere, allowing your students to study when it works for them. Whether at home or in a classroom or lab, your students can work through the courseware at their own pace, making sure they master each concept before moving forward.

## Provide your students with the instruction they need to succeed.

PLATO Adult Education & GED Solutions allow you to customize content to fit your program and your students' needs. The courseware can be used as either full-course or supplemental instruction, depending on your program needs and goals. Our content is aligned to National Reporting System (NRS) standards, as well as to national tests such as TABE, CASAS, and GED. Additional learning paths are also available to meet your specific program needs.

A GED simulated test is also available to help your students become familiar with the exam and focus their learning on the skills assessed. By targeting your students' instruction to fill specific knowledge gaps, you are focusing the instruction where they need it most and helping students achieve their goals quickly.

PLATO Adult Education & GED Solutions provide instruction in most subject areas, including math, reading, and science.

*“As students work through the courseware, their self-confidence improves along with their self-esteem and their ability to work and achieve academic progress by themselves.”* —Larry Sorensen, instructor, Ava Adult Education and Literacy Center, Missouri

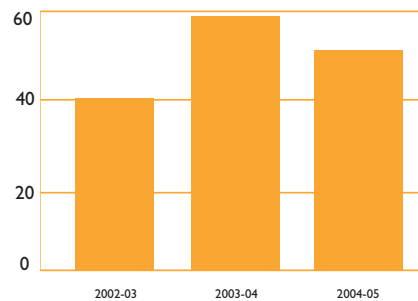

### Real learning. Real results.

The Ava Adult Education and Literacy (AEL) Center works with adult learners in Ava, Missouri, to help them attain skills desired by local employers and to empower them to advance to higher education.

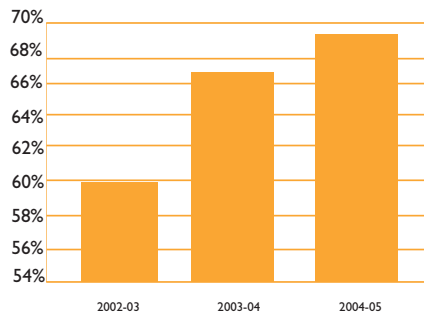

Since implementing PLATO Adult Education & GED Solutions, the AEL program has seen tremendous success, averaging 36 graduates per year. But the program has bigger goals than just graduation rates. Instructor Larry Sorensen helps the students build confidence to attain greater success through goal setting and face-to-face assessment conferences.

The program’s goal setting and self-paced instruction have been successful, with one out of every four students working toward their GED attaining their goal. Nearly 70 percent of program graduates have advanced to college. The AEL program has graduated 256 students, with 110 attending college at nearby Drury College and more at colleges around the state. In all, the Ava AEL Center has helped almost 10 percent of the town’s population and the surrounding areas achieve their GED certification.
