

## **CW: What does it mean if a learning path has a star with an E, but there is no square or circle for completion?**

---

### **PRODUCTS AFFECTED**

- PLATO Pathways
- PLATO Web Learning Network

### **SYMPTOMS**

A learning path in an assignment shows a star with an E in it but no square (Pathways) or an empty circle (PWLN). Does the learner need to complete this learning path?

### **CAUSE**

The star with the E means the learner has been exempt from the learning path by an assessment or an instructor. The lack of a square or an empty circle means that the learner has not started the learning path. The exemption means that the learner has demonstrated mastery of the objectives in the learning path.

### **SOLUTION**

The learner does not need to complete the learning path and should go on to the next assignment.
